

(Continued from 1st Page.)

Pledged to neither Sect nor Party,  
But Established for the Benefit of All.

FRIDAY, OCT. 27, 1893.

## THE PEOPLE TO DECIDE.

On another page of this paper will be found a telegram from Washington, which states that Minister Blount has recommended that the question of restoration of the monarchy shall be left to the Hawaiian electorate. It also hints that the strong arm of the United States will be employed if necessary to effectuate the wishes of the Hawaiian people in the matter. This would only be carrying out a much-quoted principle of the Declaration of Independence, which was violated by the un-American alliance of Minister Stevens and the Boston troops with a band of revolutionists here last January. There is no doubt, from the surly tone of the telegram, that it is from an annexationist source. Its opening sentence belies history even in these very islands. An eye-witness of the event, and one of the late King Kalakaua's strong supporters, reminds us that Admiral Skerrett, who is now here, as commander of the United States naval forces in conjunction with Captain Belknap, put Kalakaua on the throne. Among the local leaders of the movement were the present Chief Justice and the late S. G. Wilder and H. A. P. Carter, who later reaped the full reward of their support. A later instance in contradiction of the Washington correspondent's preface to his news is where the United States took a prominent part in restoring the present King Malietoa of Samoa to his throne. It may be mentioned that the news about a vote is confirmed by a private letter received in Honolulu from a Republican Senator who is in favor of annexation.

## HOMICIDE AT THE PALI.

Death of a Chinaman from Injuries  
in a Quarrel.

A Chinaman named Lo Kwai had an encounter with Von Berg who tends the water near the Halfway House yesterday afternoon at the Pali, which resulted in his death last night. Lo Kwai, who was sailing, was coming into town from Koolau with a companion for medical treatment. When near the summit there was some disagreement between him and Von Berg over the right of way, and the latter struck him, as he claims, in self-defense. Lo Kwai reported at the Police Station and Von Berg was sent for. Von Berg on arrival stated that the Chinaman had struck him first. Dr. Cooper examined the Chinaman and found that he had suffered severe injuries, and ordered him taken to the hospital. The injuries received added to his ill health caused his death last night.

Deputy Marshal Brown is holding  
an inquest this afternoon.

## UGLY ACCIDENT TO A JAP.

He Gets a Pickaxe Driven Into His  
Back.

A number of Japanese in the employ of the Hawaiian Tramways Co. were engaged all day yesterday digging up the rails on the lower end of Alakea street. Shortly before 5 o'clock two of the Japs were working so closely to each other that the pickaxe in the hands of one of the men descending struck the other on the left side of the spine, tearing it in a deep and ragged wound. The man fell and was assisted by his fellow workmen to his home, where medical aid was summoned. The Jap will be confined to his bed for some time, as it is believed his kidneys are injured.

## McDowall's Contract.

Captain McDowall did not make any effort to raise the stranded Miowera this morning on account of his gear not being in position. He will, however, try to lift her at 6:20 o'clock to-morrow morning, and he is quite confident that he will succeed.

## LOCAL AND GENERAL NEWS.

The San Francisco Chronicle contains a large picture of the Miowera as she appeared on the coral reef, while the Call has views of the tugging by the Adams, Aikoku Maru, Hawaii, etc.

While Capt. Patterson of the harbor police was conferring with Capt. Hayward of the Mariposa about a stowaway who arrived on the Mariposa, the stowaway gave the officer the slip and vanished into the unknown.

Nothing is heard this mail of Minister Willis. Consul-General Mills believes some of his mail has miscarried. Diplomatic and consular representatives are allowed thirty days in the United States after receiving their commissions. The Minister must be detained either for instructions or on account of his wife's health lately reported as not good.

## THE DEADLOCK OVER SILVER.

There is no doubt felt at Washington that the report is substantially correct of a compromise on the silver question having been agreed to by Democratic Senators. It is stated explicitly that a measure is in course of preparation at the hands of the Democratic steering committee, the main conditions of which have been agreed upon by the entire Democratic side. This bill removes the date for repeal of the Sherman law until Jan. 1 or July 1, 1895; it retires treasury notes below \$10; it coins the \$54,000,000 of silver seigniorage now on hand, and it makes the purchase of 4,500,000 ounces of silver a month mandatory.

A Washington despatch to the Daily America says: Secretary of State Gresham said to-night, after returning from a visit to the White House, that no compromise had been agreed to by the Administration. The Secretary said the Administration had in nowise changed its position. He would say, though, that the President was opposed to Senator Gorman's scheme of bringing about unconditional repeal.

## A NATIONAL GARLAND.

Women at the World's Fair are agitated over the question of a national flower. It is deemed hopeless to get a choice of a single flower, as each section has its favorite flower. Therefore the idea is catching that when all the States and Territories have voted, the flowers chosen shall be woven into a garland to be made national.

## A CHASE FOR OPIUM.

Three men in a boat picked up bags of opium thrown overboard from the S. S. Rio de Janeiro as she was passing out the Golden Gate. They were observed by a revenue tug on the watch for such a performance and pursued. As they refused to come to a stop, they were fired from the tug, which caused the smugglers to throw the bags into the sea. At last accounts efforts to recover the stuff with grappling irons had not succeeded.

## BRIEF NOTES.

The monument in commemoration of the battle of Trenton was unveiled in an imposing military display in presence of a large crowd at Trenton, N. J., yesterday. The monument stands 150 feet above street level, its principal feature being a large bronze statue of Washington.

The Harvard University's meteorological station has been successfully established on the Volcano Misti, near Arequipa, Peru, at an elevation of 19,000 feet. It is equipped with modern instruments.

A father, son and daughter, named Slerablock, of Hampden, O., were found asphyxiated in a hotel near the World's Fair. It is supposed they blew out the gas.

An effort of the fast mare Alix at Racine, Wis., to beat the Maud S. record of 2:08 1/2 in a high-wheeled sulky, failed.

The court of inquiry at Vallejo, to investigate charges and counter-charges between Major Henry A. Bartlett and Capt. Cochrane sent its report to Secretary Herbert, on which he has found sufficient grounds to restore Capt. Cochrane to duty.

Mrs. Cole of San Diego, who lost the entire skin of her left arm by a gasoline stove explosion, has undergone a skin-grafting operation, forty friends generously contributing pieces of their skins for the purpose.

Dr. West of San Francisco, charged with the murder of Addie Gilmour, is denied bail.

A powder house at Fresno, Cal., exploded, doing damage for miles around. Strange to say, nobody seems to have been seriously injured.

Justice Brown of the United States Supreme Court, while trying to close a window, was struck by a piece of plate glass in the right temple, cutting a severe gash and severing an artery. But for prompt medical attendance he would have bled to death.

Another hurricane swept the Eastern States on the 13th, but no extensive damage or loss of life is reported.

Tyrell is undergoing preliminary trial in San Francisco for the late dynamite outrage.

The steamer Newbern has gone aground a few miles north of the San Pedro lighthouse. Passengers were safely landed. The ship broke in two. She was built at Brooklyn in 1863, and was one of the Government transports during the rebellion.

The American Express Co. has lost \$50,000 entrusted to it to carry from New York to New Orleans.

For the first nine months of the present year the value of imports exceeded that of exports by \$22,221,440. For the first nine months of 1892 the excess was far the other way, being \$89,204,090 of exports over imports.

The Mohican from Behring sea via Sitka and Vancouver island arrived at Port Townsend Oct. 13, with five officers and seventeen men sick with the grip. The Mohican put in to Port Townsend to repair a broken feed pump.

Judge Dandy, in the United States District Court at Omaha, has appointed receivers for the Union Pacific Railroad. The liabilities are over \$240,431,041.

A report is published that Serbia, Greece and Montenegro, all under Russian influence, have formed an alliance against Bulgaria. This is considered a Russian triumph and a decided check on the Dreikund.

Emperor William has accepted the resignation of General von Kattenborn Stachon, Minister of War, which was tendered on account of a difference of opinion regarding the changes in the cavalry maneuvers projected by the Emperor after witnessing the recent Austrian reviews.

Baron Chimsuki, president of the lower house of the Austrian Reich-

R. H. McDonald, Jr., vice-president of the defunct Pacific bank, has married a widow named Mrs. Charlton, formerly Miss Elsie Bender.

Sheriff McDade is cited to show cause why he should not deliver the assets of the Pacific bank to H. L. Willey the receiver.

Doolittle of Washington State has introduced a resolution for investigating the Nicaragua Canal.

The McCrory Chinese bill has passed the House. President Cleveland is said to be perfectly satisfied with it.

Mrs. Roscoe Conkling has died of apoplexy at Utica, N. Y. She was more than 60 years old.

Yellow fever continues to spread at Brunswick, Georgia.

The U. S. S. Ranger's shaft has been found crooked on examination. When straightened the Ranger will probably be sent to China.

It is rumored in the Mare Island navy yard that one of the cruiser Boston's eight-inch rifles has been found defective and will be condemned.

Great havoc has been wrought by storms on the lakes. The steamer Woonen, bound from Astibulud to Duluth, foundered with a loss of 13 souls out of the crew of 16. Many other disasters are reported.

The "Soo" road has made a cut of \$65 for return tickets from Missouri river points to the Pacific Coast, the former rate being \$80.

Francis P. Egan, eldest son of Patrick Egan, late Minister to Chili, has married a daughter of the late Don Jorge Rokas, at one time a member of the Chilean Senate. The Rokas family is very rich.

General Dennis Francis Burke has died at New York.

Reported yellow fever on a ship at Boston is declared not to be that disease.

It is rumored that P. D. Armour, the wealthy pork packer of Chicago, is about to add \$300,000 to the equipment of the Armour Institute.

Three New York policemen left their posts and with a companion went to sleep in a Central Park building. All of them were overpowered with gas, only one of the four, a policeman, being alive at last accounts and he in a dying state.

Illinois Central railroad net earnings show an increase of \$389,515 over 1892.

The Pullman Palace Car Co. cleared, above its \$2 per share quarterly dividends, over \$1,000,000 the past year.

Mayor Boody of Brooklyn has given out that he will not permit the prize fight between Jim Corbett and Charley Mitchell to take place at Coney Island.

The Australian cricketers, who were beaten by the Philadelphia team, have beaten the Detroit cricketers by an inning and 157. Detroit scored 145 in the two innings.

The New York Synod of Presbyterians has voted by a large majority, after a heated debate, that the condemnation of Professor Briggs for heresy by the General Assembly was final.

General Adams, commander of the G. A. R., is improving after a weak spell consequent on a surgical operation.

## EUROPE.

M. Gounod, the great composer, author of the opera "Faust," died in Paris on October 18. His age was doubtful but according to himself was 75. The question of giving him a state funeral is undecided.

FINANCIAL REFORM FOR ITALY.

Signor Giolitti, Premier of Italy, in a late speech declared the foreign policy of Italy rested on peaceful alliances, and the Toulon incident proved that the desire for peace was common to all European nations. This situation would allow Italy to devote her efforts to raise herself from the present economic depression, which was due to excessive and unproductive expenditures, involving heavy foreign loans. He said there was a turn for the better in Italian finances, and described some of the proposed reforms.

DEATH OF MARSHAL MACMAHON.

Marshal McMahon died Oct. 17. He will have a state funeral. Marshal McMahon was born at Sully, July 13, 1808. He was descended from an Irish family, his ancestors having left England after losing all for the last of the Stewart Kings. Marshal McMahon was famous as a soldier, statesman and patriot. He succeeded Thiers as president of the republic in 1873, resigning the office in 1879.

RUSSIAN SQUADRON IN FRANCE.

Visits were exchanged between Admiral Avellan of the Russian squadron and Marshal Canrobert on the 19th. In replying to the Russian commander's greeting the Marshal said that the French officers in the Crimea could not restrain the admiration they felt for Russian courage. In fact, it was in the Crimea that the French first learned to love and esteem the Russians.

The Russian sailors lunched at the Ministry of Foreign Affairs and received the usual ovation. There were the familiar toasts to Russia and France, which were drunk with enthusiasm.

In the evening the President gave a banquet at the Hotel de Ville, to the Russians. The building was packed with enthusiastic people.

The Toulon authorities propose to change the name of the Boulevard le Goutier to Boulevard Avellan after the Russian Admiral. It is also suggested to change the name of the new ironclad to be launched on the 27th either to Tsar or Russia.

Paris has been in a perfect tumult ever since the arrival of the Russian naval visitors. Several persons have been mobbed for refusing to take off their hats to Russian visitors, while others have been arrested for shouting "Down with Russia!"

## GENERAL ITEMS.

Two thousand miners attacked the Sutton collieries at St. Helens, Lancaster, yesterday. They drove away the mine officials, broke the machines at the pit and split up the wagons. The police charged, clubbing men right and left. Ten men were arrested. Several miners were severely wounded and several police injured.

rath, has resigned. His reasons are objections to the franchise bill. The Emperor refused to accept his resignation, and promised a dissolution of parliament if the bill was defeated.

According to the blue book on Irish farm laborers just issued, their position is better now than at any former time.

Henry Asquith, Home Secretary, says home rule will not be taken up next session, but the Newcastle program of reforms will be carried out.

## OTHER LANDS.

## BRAZIL TO HAVE A P. O.

Passengers just arrived at Buenos Ayres from Rio de Janeiro say reports of the sinking of the rebel warship Urano are unfounded. None of the vessels engaged showed damage.

Rio was reported under fire all day the 18th.

Advices from Rio are that the revolutionary party will establish a provisional government at Detero.

Advices received in official circles in Berlin from Apia, Samoa, say that the German war ships in those waters in conjunction with the British ships, have suppressed the recent disturbances at Jutilla. There was no loss of life during the suppression of the disturbances and peace is established throughout the island.

## BREVITIES.

The great Chinese cotton mill at Shanghai, belonging to Viceroy Li Hung Chang, is burned. Loss \$500,000; no insurance.

The Legislature of Bolivia has passed a bill abolishing slavery. It is a mere form, as the peons have been practically free for some time.

The Australians beat the Canadians at cricket in Toronto by an inning and 70 runs.

By Jas. F. Morgan.

DURING MY ABSENCE FROM THIS Kingdom Mr. W. Lishman will hold my power of attorney.

G. W. MACFARLANE, Honolulu, Oct. 16, 1893.

## Hawaiian Hardware Co., Ltd

Saturday, Oct. 21, 1893.

This is the season for southerly winds and with them usually comes more or less sickness of one sort or other, generally fevers. Just why this should be the medical and scientific men know, we do not. The doctors prescribe the cures and the scientists the preventatives; if you believe in the old saying that "an ounce of prevention is worth a pound of cure," you will prefer a closer touch with men who give you that which keeps sickness away to those who give you unpleasant things to swallow after disease has taken hold of you.

Several years trial of the Ozonator has convinced the people of the United States that it is the best and least offensive of any of the hundreds of compounds sold for the purpose. During the cholera scare in New York a year ago thousands of these little contrivances were sold and the terrible disease was kept off. We got a couple of dozen at the time and sold them to people who use them in different parts of the house and say they keep the atmosphere of the rooms always fresh. We received a lot of new ones last week and if you wish to reduce the dangers of sickness to the smallest atom it would be well for you to order your Ozonator now.

Last week we had an order from one plantation for the wire and materials for building five miles of Locked Fence and the order did not come to us until the manager had carefully calculated the difference in the cost between the old style and the new. That the locked fence will be adopted by the plantation managers there is no doubt once they realize that a stronger and better support is cheaper at 6c. than the conventional redwood post at 18c. Work it out from this: your posts in a locked fence may be set fifty feet apart, between posts, and at a distance of six feet are the spring wire stays which cost 6c. each, fastened to the wire with patent washers at 15c. a pound and weighing 28 pounds to the 1000. Calculate also the time required to dig post holes and in taking up the slack. With the new style there are fewer posts to dig and the arrangement for fitting the stays and washers takes up every particle of slack and leaves the wire as taut as a miser's purse strings. We will be pleased to answer all inquiries regarding this fence either in person or by letter. A sample in the rear of our store will convince the most skeptical of its superiority.

We sold some "Aloha" Mats last week to people who wish to convey to their friends the idea that the latch strings to their homes usually hang outside. These goods are not put together cheaply for the purpose of selling at the low price we ask for them, but are really of a fine quality, the best that England can produce.

After our advertisement last week was set up we opened a dozen cases of fine Bird and Parrot Cages. They are of the best quality with all improvements whereby the danger of losing the bird is materially reduced. The Parrot cages are of tin, well put together with safety wire floor, so that they may be cleaned without risk of the bird flying off. They are in various shapes: square, oblong and round, and the bird that won't whistle "After the Ball" when it gets inside of it is no use.

A year ago we boomed the Hendry Breaking Plow to an extent that brought it to the attention of plantation managers until it is now recognized as the only good breaker on the market.

These Goods are Guaranteed First-class in every respect and are offered for sale at Very Reasonable Prices.
